WEEK 03 ASSIGNMENT

Course Title: Software Development III: AI-Based Software Project Development

Course Code: CSE 4104

Section: 7D | Spring 2026

Submitted to

Md. Riaz Mahmud

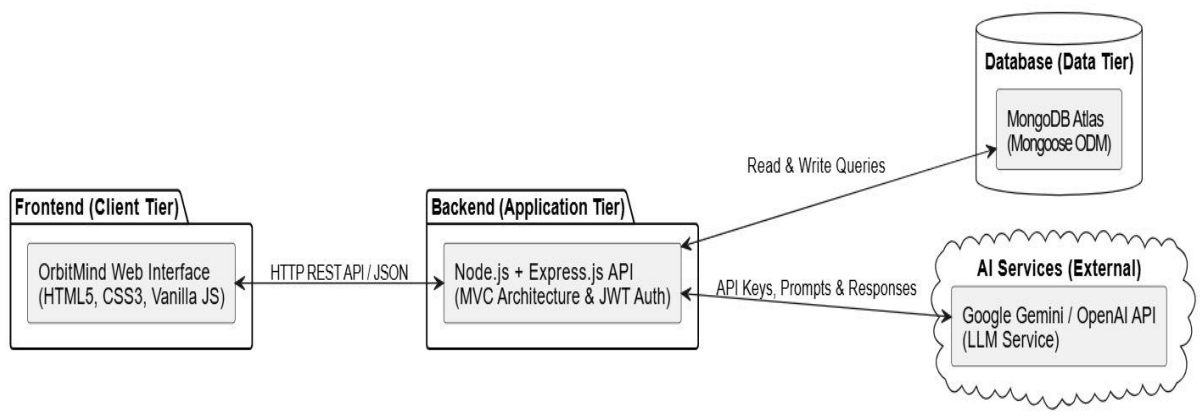

Assistant Professor

Department of Computer Science and Engineering

Northern University of Business and Technology, Khulna

Khulna 9100, Bangladesh

Initial System Architecture Diagram

Theoretical Description

The System Architecture Diagram provides a high-level structural blueprint of the OrbitMind AI platform, utilizing a modern, decoupled client-server model. It is divided into distinct operational tiers: the Frontend Client Tier (HTML5/CSS3/Vanilla JS) handling the responsive user interface; the Backend Application Tier (Node.js/Express) managing MVC business logic, REST API routing, and JWT authentication; and the Data Tier (MongoDB Atlas) responsible for persistent storage. Furthermore, it highlights the integration of external cloud infrastructure, demonstrating how the backend securely proxies AI prompts to the Google Gemini/OpenAI API to deliver intelligent capabilities to the client.
